

- 1) Explain Adapter Class And Give Example?
- 2) Explain List Collection With Example?
- 3) Explain Prepared Statement ?
- 4) Explain Servlet Life Cycle?
- 5) What is method overloading with example?
- 6) Diff Between Method Overloading and method overriding?
- 7) Difference Between arraylist and vector?
- 8) Explain Inheritance With Example?
- 9) Explain Interface With Example?
- 10) Explain Types Of Class?
- 11) Explain Encapsulation with example?
- 12) Explain Access Modifier in java?
- 13) Explain Object life Time, Garbage Collection & Multidimensional Array in Details?
- 14) Explain runtime polymorphism ?
- 15) Explain TreeSet With Example?
- 16) Explain Keywords?
- 17) Explain Import And Static Import In Java?
- 18) Explain Exception Handling also Explain All Types Of exception in detail with suitable example?
- 19) Explain Arrays In Java ,What are the types of array In java ?
- 20) Explain Regular Expressions In Java With Example?
- 21) Explain Input And Output Operation in java ?
- 22) Explain Event Driven Programming with example ?
- 23) What Is Event handling?
- 24) Explain Architecture Of Web Application with Challenges?
- 25) Major Difference Between Developing and Deployment Servlet?
- 26) What Is JSP, With Example?
- 27) Explain Different type of access control available in java.
- 28) Explain Different Types of constructor in Thread class.
- 29) Differentiate character stream and ByteStream ?
- 30) Explain Nested Classes?
- 31) Explain Synchronized keyword.
- 32) Explain Scanner .
